Professional Summary:

Highly skilled and versatile Full Stack Developer / Software Developer / IT Analyst with over a decade of hands-on experience in designing, developing, and implementing cutting-edge applications and solutions. Proficient in a wide range of technologies and programming languages, with a proven track record of delivering high-quality, mobile-first responsive designs and robust back-end functionality.

Adept at rebuilding and maintaining complex front-end experiences, while seamlessly integrating with back-end systems to ensure optimal communication and performance. Experienced in expanding sales opportunities through the development of custom platforms and effective management of version control operations.

Seeking a challenging role as a Full-stack Developer, where I can leverage my extensive development experience, hands-on IT expertise, and strong problem-solving skills to drive innovation and contribute to the success of a forward-thinking organization.
